Subject: Sewer Use Fees

To: All Morris Township Residential Sewer Users:

In accordance with Ordinance No. 14-08, adopted on June 18, 2008, this is to advise that it has become necessary to increase the sewer fees effective July 1, 2008 due to increases in operational expenses. The new rate will be \$141.25 per quarter per unit.

The Township has not had a sewer fee increase since 1991 when the fee was set at \$492.00 per year or \$123.00 per quarter. The last sewer fee change was in 1997, which actually lowered the user fees from \$123.00 to \$113.00 per quarter. As much as the Township strived to keep the fees at a constant rate, the Sewer Utility has incurred increased expenses that we now must address.

Please note the due date has been extended to **July 25, 2008**. If payment is made after July 25, 2008 interest will be charged from July 1, 2008.

Thank you for your understanding.
